

## **Business Impact Group and Chief Information Officers Advisory Committee**

### **Communiqué – 22<sup>nd</sup> June 2016**

At its second combined meeting, the Business Impact Group and the Chief Information Officers Advisory Committee focused their discussions on the merits of two major projects:

- **GovNext-ICT Service Broker (GSB)**

A dedicated team set up specifically to operate, maintain and drive the benefits realisation targeted from the GovNext-ICT program. The GSB will require specialists with a breadth and depth of skills across contract, agency-IT engagement and operations, and enterprise ICT architecture skills.

- **MyWA Portal**

The primary objective of the MyWA Portal initiative is to deliver easy to use government services to the community. The development of the MyWA portal will be an iterative process. These iterative versions will enable the capturing of user feedback to assist with future revisions, to ensure we are designing and delivering services that are based on user needs.

Members discussed the importance of the Western Australia Data Classification Policy. The Policy will provide a framework for the safe sharing of information; allowing for better data analytics and decision-making. The Policy is currently out for consultation with WA public sector entities.

#### **Next Steps**

The next governance group meeting is scheduled for September 2016.
